Miracle Micro-Therapy

Discovered in France, Micro-Dermabrasion has gained the reputation of being the most effective non-invasive face therapy for the softening of fine lines, skin discoloration, enlarged pores, sun and age spots, blemishes and both chicken pox and acne scars. Miracle Micro-Therapy takes this technology to another level by replacing the traditional Aluminum Oxide crystals with the kinder and more organic Baking Soda crystals. This means that the skin is exfoliated thoroughly, but because Baking Soda is compatible with the skin, your face will not be left inflamed. Miracle Micro-Therapy is so gentle we can work upon sensitive areas, including the eye lids and mouth. The combined use of a suction with the deep exfoliating apparatus encourages enhanced Collagen production. The result is a youthful, vibrant skin tone. After just one treatment a difference will be noted, but for ultimate results we recommend a series of 5 or 10 treatments.

Miracle Micro-Therapy single session / 30 minutes \$80
